

MAESTRO ENERGY PTY LTD

COMPANY PROFILE

Maestro Energy was founded in 2010 by Johnny Merheb. The Maestro team has a combined experience of over 25 years in electrical services installation.

Maestro Energy prides itself on providing excellent electrical contracting services. They have a dedicated team with a reputation for professionalism, punctuality and knowledge.

The team specialise in the following:

- Wiring and fit-out for residential, commercial and industrial buildings
- Emergency and exit lighting
- Main switchboards
- Distribution boards
- Upgrade works to existing boards and electrical infrastructure
- Lighting and power installation
- Dry fire
- Access control and intercom systems
- Security camera systems
- Smart home systems
- Future proof for smart home installation
- Internet / data / phone cabling
- NBN infrastructure in buildings

Maestro Energy are able to tailor a solution using their wide range of expertise to provide an electrical services solution from the inception of a project through to the end. Maestro Energy took over the managing and directing of PHY electrical and communications contractors between 2013 – 2017, managing over 13 projects at any one time. Their expertise meant that they were able to undertake these projects with minimal project interruptions and meeting the construction deadlines and client expectations.

Over the past 10 years that Maestro has been in operation they have delivered a wide range of projects:

- Air / Quest apartments, St Leonard's
- Coplex developments at Rydalmere and Merrylands
- Woodgate Construction apartments in Waterloo (76 high end apartments)
- Holdmark Construction Astra Zenica Medical Clinic, Macquarie Park

The Maestro Energy team has also designed and installed a number of high-end residential projects in areas such as Dee Why, Dover Heights, Bondi and other areas around the Sydney region.

The Maestro team are OH&S trained and will be part of the OH&S safety committee on your project. The team are able to provide a safe work method statement and other relevant documentation prior to project commencement.
